

ULTRA LIGHT CLUTCH DISCS

Natty Ultra Light Clutch Disks are aluminum treated and coated clutchdiscs. This product compared to the original steel disk is 60% lighter. The rotating lighter mass allows to reach better acceleration.

Natty Ultra Light Clutch Disks are able to increase acceleration of engine and ensure a quick response all the time the driver need power.

Natty Ultra Light Clutch Disks are available for the following engines: Honda 250NSF/RW, Moto3, Talent, CBR600, Yamaha YZ250, R3/MT03, YZ450, KTM 250/450, Moto3, JuniorGP, Triumph 675/765, Moto2.

Our Natty Ultralight Clutch Disks was tested in World, European and Italian Championship. Following our usage specifications is it possible to reach 600 km of use. Our technical specification of use are inserted inside the packaging of the products. For more information please do not hesitate to contact us.
